# A Quality Aluminum Product that Hauls More Payload

Alumne Manufacturing is a leader for Aluminum Truck Bodies in the green industry. Our bodies are made from high-quality, corrosion-resistant 6061-T6 Aluminum Extrusions specifically designed to be lighter, stronger, and more durable. With fuel cost going higher every day the Alumne Platform Body is the ultimate solution for hauling. It is all aluminum, increasing pay load, eliminating preventive maintenance and maintaining its value. The entire body can be cleaned with pressure washing. All lighting is LED and the electrical system is sealed. By combining these innovative techniques along with proprietary Alumne extrusions, Alumne Manufacturing has created the best truck bodies in the industry.

## Standard Construction on 1222XL312 Skirted Platform Body

### Platform

- 4 1/2" Extruded side rail
- 3/8" Extruded interlocking floor
- 2" Extruded cross members 18" OC
