Customizing Options

Alumne Manufacturing is a leader for Aluminum Truck bodies in the green industry. Our truck bodies are made from high-quality, corrosion-resistant 6061-T6 Aluminum Extrusions specifically designed to be lighter, stronger, and more durable. With fuel cost going higher every day the Alumne Lawn Maintenance Body is the ultimate solution for landscapers. It is all aluminum, increasing pay load, eliminating preventive maintenance and maintaining its value. The entire body can be cleaned with pressure washing. All lighting is LED and the electrical system is sealed. By combining these innovative techniques along with proprietary Alumne extrusions, Alumne Manufacturing has created the best truck bodies in the industry.

Single rear spreader platform with dual extruded ramp gates

Recessed fuel fill

Top mounted side boxes

Dual rear spreader platform with single extruded ramp gate

Back pack sprayer racks

Under body tool boxes & strip steps

Go green

increase your Fuel economy with an Aluminum Body
